(July 2016 - April 2018)

## PROJECTS

### Stock Market Bot for Discord

<https://mohitsahoo.com/discord>

(September 2020 - March 2021)

This bot can send equity prices and attributes, charts, weightages and movers of indices, daily or monthly FII DII activity and other things. It is serving multiple servers with combined users of 3500.

- Fully asynchronous program.
- Supports all exchanges national and international and very quick queries.
- Python backend with asynchronous PostgreSQL as the database.
- Premium features as a form of monetization.

### Auto playlist generator for Spotify

<https://mohitsahoo.com/spotify>

(May 2020 - May 2020)

This converts your Spotify liked songs into a public playlist and updates it hourly. This tackles a problem with the Spotify application, i.e, you can't share your *Liked Songs* publicly without making a separate playlist and manually adding the songs.

- Written in a variant of JavaScript, Google Apps Script.
- Google sheets as the database.
- Inexpensive solution.
